Objectivity Case History

Customer Information

Customer: Nortel
Industry: Telecom
Application Domain: Sales Quote Configurator
Status: Phase 1 Release
Platform: HP, Intel/NT
Compiler: Visual Works
Other Tools: Envy

Buying Criteria

ODMG Smalltalk interface support
Transparent interface
Multi-threading support

Why Objectivity

- Matt had built a similar application for another project using Versant and had a myriad of problems getting to deployment.
- Objectivity's Smalltalk thread support seen as superior to Versant's
- We built a persistence framework for them to kick start their development
- Replication seen as an easy way of distributing quote data worldwide
